Pearl Health Center Payment and Collection Policy

The entire team at the Pearl Health Center is focused on making your healthcare experience as successful as possible. This includes helping you understand your bill. We hope the following will help clarify the most frequently asked questions.

Insurance Benefits

1. We are happy to bill your insurance plan for the care provided to you. We participate with most plans. As a courtesy, we typically call your insurance company to verify your benefits, deductible and copay amounts and we advise you do the same. Should your plan require a referral or authorization for a service, we will attempt to obtain it. ***However, the benefits of your insurance is between you and your insurance company.***

2. Laboratory specimens are sent to an outside lab for processing and you may receive an additional bill from the lab. Since all charges are your responsibility to pay, we urge you to contact your plan should you have questions about your benefits or the way your insurance company may process your claim.

Copays

Copays and/or deductibles are due at the time of service.

No insurance?

If you do not have insurance coverage, we offer a cash-pay discount for payment in full at the time of service. Cash prices are available upon request but they are not available for all services. Keep in mind that outside lab services will be at an additional cost.

Monthly Statements

Statements are sent monthly and we ask that you will pay any balance due within 30 days.

Unpaid accounts

Accounts over 90 days past due without a payment plan will be entered into a collection process which may affect your credit. If you have questions or concerns about your bill please call our business office at 503-525-0090, Option 3. Monthly payment arrangements to work within your budget are available. Past due accounts must be paid in full or payment arrangements made before further care is obtained at the clinic.

Please keep us informed of any changes in your insurance plan eligibility and update us if your address or telephone number changes.

Overpayments

Overpayments are identified periodically and refunds of amounts over $10 occur automatically. Refunds of overpayments less than $10 may be obtained by calling our business office.

Privacy Policy

This notice describes how medical information about you may be used, disclosed, and how you can obtain access to the information. **PLEASE REVIEW CAREFULLY.**

Our Responsibility

By law we are required to safeguard your PROTECTED HEALTH INFORMATION (PHI). Your PHI includes data about your past and present health conditions, the service provided to you, and the payment for said health care. This notice advises you of your rights and explains when, why, and how we can legally release your PHI to a third party outside of our practice. We take the responsibility seriously and promise to make every effort to execute them in an efficient manner.

WE MAY USE AND DISCLOSE YOUR HEALTH CARE INFORMATION IN THE FOLLOWING WAYS

- **Treatment:** We may disclose your PHI to practitioners, office staff or other personnel in the clinic. We may also disclose your health care information to other providers who are involved in taking care of you and your health.
- **Payment:** We may disclose your PHI to bill and collect payment for the treatment and services we provide
- **For Health Care Operations:** We may use and disclose medical information about you for office operations. These uses and disclosures are necessary to run the office and make sure that all of our patients receive quality care. For example, we may use medical information to review our treatment and services and to evaluate the performance of our staff in caring for you. We may also combine medical information about many patients to decide what additional services we should offer, what services are not needed, and whether certain new treatments are effective. We may also disclose information to other doctors, nurse practitioners, nurses, medical assistants, technicians, and other office personnel for review and learning purposes. We may also combine the medical information we have with medical information from other offices and groups to compare how we are doing and see where we can make improvements in the care and services we offer. We may remove information that identifies you from this set of medical information so others may use it to study health care and health care delivery without learning who the specific patients are.
- **Disclosures to Business Associates:** In certain circumstances, we may need to share your medical information with a business associate (i.e., transcription company, accountant, or attorney) so it can perform a service on our behalf. We will have a written contract in place with the business associate requiring it to protect the privacy of your medical information.
- **Appointment Reminders**: We may contact you by phone or leave a message on your home phone, work phone, cell phone or email as a reminder that you/your child has an appointment scheduled for treatment or medical care at the office. Please notify us if you do not wish to be contacted for appointment reminders.
- **Treatment Alternatives/Health-Related Benefits and Services**: We may tell you about or recommend possible treatment options or alternatives or health-related benefits or services that may be of interest to you. Please notify us if you do not wish to receive communications about treatment alternatives or health-related products or services.
- **SPECIAL SITUATIONS**: We may use or disclose health information about you without your permission for the following purposes, subject to all applicable legal requirements and limitations:
- **Oregon Immunization Alert Program**: We will report your child's immunizations to the Oregon State immunization registry. Only authorized users have access to a child's immunization history.
- **Family and Friends**; We may release medical information about you to a friend or family member who is involved in your medical care if we obtain your verbal agreement to do so or if we give you an opportunity to object to such a disclosure and you do not raise an objection. We may also give information to your family or friends if we can infer from the circumstances, based on our professional judgment that you would not object. For example, we may assume you agree to our disclosure of your child's personal health information to both parents. In situations where you are not capable of giving consent (because you are not present or due to your incapacity or medical emergency), we may, using our professional judgment, determine that a disclosure to your family member or friend is in your best interest. In that situation we will disclose only health information relevant to the person's involvement in your care. In addition, we may disclose medical information about you to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status and location.
- **Research and Organ/Tissue Donation:** We may use and disclose health information about you for research projects that are subject to a special approval process. We will ask you for your permission if the researcher will have access to your name, address or other information that reveals who you are, or will be involved in your care at the office. If you are an organ donor, we may release medical information to organizations that handle organ procurement or organ, eye or tissue transplantation or to an organ donation bank, as necessary to facilitate organ or tissue donation and transplantation.
- **As Required By Law or To Avert a Serious Threat to Health or Safety:** We will disclose medical information about you when required to do so by federal, state or local law; when necessary to prevent a serious threat to your health and safety or to the health and safety of the public or another person; or for public health reasons in order to prevent or control disease, injury or disability; or to report births, deaths, suspected abuse or neglect, non-accidental physical injuries, reactions to medications or problems with products.
- **Military and Veterans/Law Enforcement:** If you are a member of the armed forces, we may release medical information about you as required by military command authorities. We may also release medical information about foreign military personnel to the appropriate foreign military authority. We may release medical information if asked to do so by law enforcement officials in response to a court or administrative order. Subject to all applicable legal requirements, we may also disclose health information about you in response to a subpoena.

These programs provide benefits for work-related injuries or illness. We may disclose medical information to a health oversight agency for activities authorized by law. These oversight activities include, for example, audits, investigations, inspections, and licensure. These activities are necessary for the government to monitor the health care system, government programs, and compliance with civil rights laws.
- **Lawsuits and Disputes**: If you are involved in a lawsuit or a dispute, we may disclose medical information about you in response to a court or administrative order. We may also disclose medical information about you in response to a subpoena.
- **Coroners, Medical Examiners and Funeral Directors:** We may release medical information to a coroner or medical examiner. This may be necessary, for example, to identify a deceased person or determine the cause of death.
- **Information Not Personally Identifiable**: We may use or disclose health information about you in a way that does not personally identify you or reveal who you are.
- **OTHER USES AND DISCLOSURES OF HEALTH INFORMATION**: We will not use or disclose your health information for any purpose other than those identified in the previous sections without your specific, written Authorization. If you revoke your Authorization, we will no longer use or disclose information about you for the reasons covered by your written Authorization, but we cannot take back any uses or disclosures already made with your permission. Unless otherwise requested, we will send a chart summary when an Authorization is received. If we have HIV or substance abuse information about you, we cannot release that information without a special signed, written authorization (different than the Authorization mentioned above) from you. In order to disclose these types of records for purposes of treatment, payment or health care operations, we will have to have a special written authorization that complies with the law governing HIV or substance abuse records
